

SHALE OIL & GAS SERVICES

Helping Clients Manage and Optimize Global Shale Oil & Gas Operations, Infrastructure, Logistics, Quantity, Quality, and Risk Management.

SHALE OIL & GAS SERVICES

Shale oil and gas testing, inspection, metering, and engineering services from Intertek Caleb Brett provide crucial industry support for a wide range of exploration, production and logistics requirements. From exploration & production to asset integrity management and quality and quantity control, Intertek Caleb Brett expertise helps shale clients operating in the Bakken, Eagle Ford, Marcellus, and other shale formations across the world.

Intertek Caleb Brett's global operational network ensures clients will have the right services, at the right stage, for the right need as their shale oil & gas operations grow and develop. From down-hole, to the well-head, to the refinery, Intertek Caleb Brett can help.

Shale Exploration

- Oil & Gas Shale Reservoir Evaluation Services
- Reservoir Fluids Testig and Evaluation
- Core Analysis Services

Shale Production

- Shale Natural Gas Testing and Composition
- Condensate Composition Testing and Analysis
- Crude Oil Assay and Petroleum Feedstock Tests
- Hydrocarbons Field Sampling Testing
- Drilling & Production Equipment Inspection Services

Shale Training

- Well Control Training
- Drilling Technology
- Safety & Leadership Services:
 - Dynamic Risk Assessment - HAZIQ
 - Incident Investigation, Job Safety Analysis
 - Managing Workplace Safety, Permit to Work
 - Safety Conversations
 - Building Effective Teams, Leading Safe Teams, Leadership Skills

Equipment Certification

- Hazmat Certification
- Railcar Integrity Programs

SHALE OIL & GAS SERVICES

Through our network of more than 1,000 laboratories and offices and over 42,000 people in more than 100 countries, Intertek Caleb Brett provides Total Quality Assurance solutions for our customers' operations and supply chains.

Shale Production & Logistics

- **Metering and Meter Calibration**
 - LACT Units
 - Pipelines
 - Tanks
- **Hydrocarbons Field Sampling and Transportation:**
- **Laboratory Analysis**
- **Storage Tanks**
 - Inspection, Metering, Calibration and "Strapping"
 - Product Inventory and Quality Inspection
- **Pipeline Testing, Quality Monitoring**
 - Non-Destructive Testing (NDT) Services
 - Product Quality, Quantity, and Transmix Testing
 - Metering and Calibration
 - Construction Inspection, Services
- **Crude Oil Rail Car Services**
 - DOT Mandated Crude Oil Testing
 - Non-Destructive, Testing (NDT) Services
 - Cargo Quantity Inspection, Quality Control
 - Corrosion & Failure Analysis Services
 - Railcar, Loading and Offloading Inspection Surveys
 - Inspection and, Testing
 - Railcar Integrity Programs
- **Barge and Tanker Vessel Services**
 - Cargo Inspection, Quality Control
 - Cargo Treatment, Additives
 - Non-Destructive Testing (NDT) Services
- **Petroleum Cargo Quantity and Quality Inspection Services**
- **Corrosion Evaluation, Control, and Asset Integrity Management**
- **Additional Technical Manpower Services**

Our laboratories hold a range of accreditations including ISO 17025, ISO14001 and OHSAS 18001

About Intertek Caleb Brett:

Intertek Caleb Brett provides expert qualitative and quantitative analytical assessment services to the oil & gas, chemical and other commodities markets. With a global network of laboratories, 24/7 availability, and more than a 130 years of exceptional customer service, we deliver timely, local, and customer-centric inspection and testing services, providing our clients with full transparency and minimizing risk through the supply chain.

Our team of experts can offer **24-hour turnaround** where applicable
